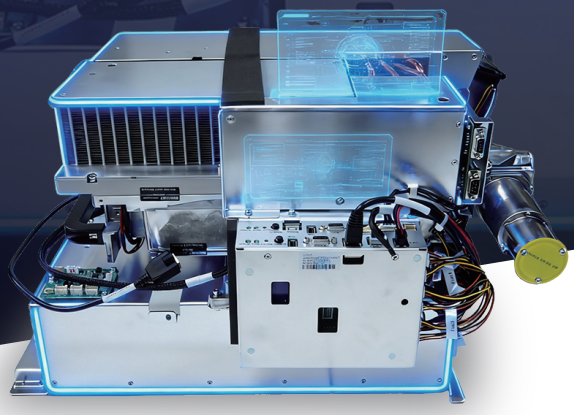
# About ALPD® Smart Series Laser Light Source

ALPD® presents the next generation Smart series laser light source with the following key features:



Product images are for illustrative purposes only

- Over 43000 projectors worldwide currently use an ALPD® light source. That's 25% of the global market
- Extend the lifetime of your current projector with increased brightness
- Lower operating costs with a light source that is 2x more power efficient than lamps
- Reduce labor costs with a light source that does not need replacement
- Fully certified
- Flexible acquisition models: Lease or Purchase

# SPECIFICATIONS

| Product Model | S06-N1000 | S20-N2000 | X35-N3200 |
|---|---|---|---|
| Light Output (typical) | 6000 | 20000 | 35000 |
| Projector Colour Gamut Standard | DCI-P3 | | |
| Laser Light Source Lifetime | 30,000 hrs, (20% decay) | | |
| Power Requirements | single phase 200~240V | | |
| Power Consumption | 550W | 1607W | 2900W |
| Operation Ambient Temperature / Air Humidity | 10-35°C, 10%-85% RH | | |
| Cooling Technology | Air Cooling | | Liquid Cooling |
| Dimensions Package (L×W×H) | 700×670×325mm | 800×700×400mm | Light Source 795×750×430mm<br>Power Supply 654×620×355mm<br>Water-cooling 1030×710×510mm |
| Weight in Package | 22KG | 38KG | Light Source 35KG<br>Power Supply 22KG<br>Water-cooling 39KG |
| Communication | RJ45 Internet port | | |
| Adapting Projector Model | NC900C / NC1000C | NC1200 / NC2000 | NC3200 / NC3240 |
